Attorney Docket No. Q65127
PATENT APPLICATION

AMENDMENT UNDER 37 C.F.R. § 1.111 U.S. Appln. No. 09/887,153

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

- 1. (Currently amended) A method of managing the operation of a mobile telephoneterminal in a telecommunications network, the method being of the type in which the mobile terminal is designed to operate selectively in a telephone call mode or in a navigator mode, and of the type in which a display means forming part of the mobile terminal or connected to the mobile terminal, are suitable for displaying a service data page formatted by a sequence of instructions a language adapted to service data, the service data page giving access to at least one service, wherein said method comprising the steps of selecting a "preferred" mobile terminal operating mode is selected for implementing a service by incorporating a preferred mode selection instruction in said the sequence of instructions for the service data page giving access to the service.
- 2. (Original) A method according to claim 1, wherein the navigator mode uses wireless application protocol (WAP).
